

Stage 2 Mandatory Water Restrictions

WATERING DAYS FOR HIDDEN COVE- TUESDAY and FRIDAY

WATERING DAYS FOR RIVENDALE – WEDNESDAY AND SATURDAY

Summary of the Water Management Plan

Water Efficiency Plan

This plan was adopted to reduce the annual waste of water, and in accordance with the North Texas Municipal Water District regulations. The following outdoor water requirements are enforced year-round.

- No watering of non-landscaped surfaces like streets, parking lots, alleys, and driveways.
- No watering during precipitation or at temperatures below 40F.
- No water runoff flowing away from property.
- **Outdoor watering is prohibited from 9:00 a.m. - 6:00 p.m. daily.**
- Hand-held hoses, soaker hoses, and drip/bubbler systems are permitted anytime except between 9:00 a.m. – 6:00 p.m. daily.
- Home car-washing is permitted at anytime with the use of a shut-off nozzle.
- Normal use and maintenance of swimming pools are permitted.
- New landscaping during Drought Stages 2 & 3 requires city approval for a 30-day watering day exemption.

Sprinkler/Irrigation Systems

The following information is provided to assist you in calculating your water usage. The data was provided by the builders and developer of your area.

There are 6 to 7 irrigation zones per house.

One zone sprays approximately 12-15 gallons per minute.

Most systems are set for 10 minutes per zone, per day at 3 days a week.

7 zones X 15 gallons = 105 gallons per minute

105 gallons per minute at 10 minutes per day = 1,050 gallons per day

1,050 gallons per day at 3 days per week = 3,150 gallons per week

3,150 gallons per week at 4 weeks per billing period = 12,600 gallons per month for irrigation only
